Note:
When your earbud battery life is low, you will hear a voice reminder.

- 1) Plug the small end of the Type-C cable into the Micro USB port of the charging case.
- 2) Plug the other end into a USB wall charger or computer (DC 5V) that is powered on.

- 3 -

Note:
It takes approximately 2 hours to fully charge the charging case. A fully charged charging case can charge the earbuds approximately 5 times.

Power on & off
Automatic operation
Power on: Open the charging case, the earbuds will power on automatically
Power off: Put the earbuds back into the charging case.

Note:
When the charging case is out of power, putting the earbuds back in the charging case will not turn the earbuds off.

Manual operation
Power on/off: Tap and hold the touch button on the left/right earbud for 5 seconds.

Note:
When the two earbuds are paired with the phone, turn off one earbud manually will make the other one be off at the same time.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into and outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
